

Pirelli Burton on Trent

Hawk were involved in the demolition and strip out of a former Pirelli factory in Burton on Trent. This included the removal of debris and contaminants from the ground material ready for new developments

Client: St Modwen

Value: £122,000
Duration: 2013

Demolition of the former Pirelli factory, the removal of debris and contaminants including asbestos, bulk earthmoving and levelling of the ground material. This process included expertise in water treatment in partnership with suppliers and under canopy hand-sorting to remove asbestos. During this project Hawk supplied a fleet of high quality machinery.
